Reagan Presses for Contra Aid

ald Reagan, staking out a tough position before the Iran-contra hearings begin in Congress, said Sunday that cutting off aid to the rebels in Nicaragua would give the Soviet Union a free hand in Central America and "one of their greatest foreign policy victories since World War II."

Mr. Reagan, speaking at the opening ceremonies of the American Newspaper Publisher's Association annual convention, said that when members of Congress vote on rance -or anything about the diviaid to the rebels, it might be the most important vote of 1987 and "possibly one of the most important cast in their careers in public

NEW YORK — President RonNEW YORK — President Ronaragua, shake the confidence of the creasingly skeptical about sending Reagan tied the contras' cause to emerging democracies in the region and endanger our own security."

Mr. Reagan's remarks appeared to be an effort to raise the stakes in foreign policy for 40 years, Mr. the battle over aid for the contras, who are trying to oust the leftist Sandinist government. He made no mention of the hear-

ings opening Tuesday on Capitol Hill on the secret sale of arms to iran and the alleged diversion of profits to the contras - a subject about which he has pleaded ignosion within the contra leadership.

Instead, Mr. Reagan turned up the pressure on Congress to approve aid to the rebels. After winming approval of \$100 million in pening right now," Mr. Reagan He warned that "delays and in- aid last year, the administration is said.

Iran-Contra Hearings: A Test Nears for President, Congress

By Dan Morgan and Walter Pincus

WASHINGTON - When Senator Daniel K. Incurye pounds his gavel Tuesday in the Senate Caucus Room to open what could be the most significant three months of televised congressional bearings since the Watergate scandal that toppled Richard M. Nixon, a new test will begin for President Ronald Reagan, his administration and

As in the Watergate hearings 14 years ago, the most publicized questions center on the president's enowledge and his actions.

Did Mr. Reagan know about the diversion of funds from secret sales of arms to Iran to the Nicaragua rebels, known as contras? Did he know about White House coordination of possibly illegal military aid to the contras after Congress prohibited such assistance in 1984? The president knew much more than what the White Has has inti-

mated." Mr. Inouve said on a television interview program Sunday. "When you add together all ofthe bits of information we have gathered over the months," he said,

one can reach that conclusion." Another member of the Houseer at a portant tee, Sander Warren B. Rutiman, Republican of New Hampshire, said on the same program. The hearings are going to that may never be resolved satisfactorily. Everyone will have to decide

who is telling the truth." The stakes for the president are enormous. Wounded by the loss of the Republican Senate majority in the 1986 elections, his political standing could collapse if it turns

A former U.S. envoy said be aided the contras on orders from Washington. Page 4.

out, after his many denials, that he knew of or approved illegal actions On the other hand, his adminis-

tration could revive if the hearings only repeat what is already known. Congress is also on trial. For four months, select committees of the Senate and House of Representatives have been investigating the affair. Unlike Watergate, it involves key national security institutions and some of the most sensi-

tive foreign policy operations.

Top administration officials mis-led Congress about White House support for the contras, said Representative Lee H. Hamilton, Democrat of Indiana and chairman of the House select committee. And the president did not inform Congress for nine months of his authorizason of secret atms sales in fram-

to recognize the Canadian claim for fear that it would set a precedent for other countries and that a future Canadian government might har passage to the U.S. Navy.

The Canadians say that another reason for the Arctic patrols is concern that Soviet nuclear suhmarines could pass beneath the ice to the Arctic waters off Canada before launching a missile attack on the United States. The defense minister, Perrin

Beatty, said in a telephone interview on Friday that no decision about the submarines could be announced until a military white paper is published in June. But he said that of all the choices

available, nuclear submarines appeared to be the "only solution" that would be effective in defend-

Canada's Atlantic and Pacific coasis as well.

Canada, with one of the world's longest coastlines, now has only three diesel-powered submarines, which are confined to Atlantic wa-

"If there is going to be some-body's navy in the north it should be ours," Mr. Beatty said. He added that the submarines would be only defensive and would not carry missiles or any other kind of nucle-He said that alternative methods

of policing the Arctic, all of which had been rejected, included "doing nothing," mining crucial passages, setting an array of acoustic sensors and "asking our friends the Americans to come in and police our sovereignty for us."

"Bu! the Americans don't accept our sovereignty, so asking them to do it wouldn't make much sense."

Allied Delay On Arms

Kohl, Chirac Ask More Talks On Soviet Offer

STRASBOURG, France -West Germany and France said Sunday that more talks with their European allies were needed before they could reach a position on the latest Soviet offer to reduce the number of nuclear missiles in Eu-

Chancellor Helmut Kohl, speaking after talks here with Prime Minister Jacques Chirac, said his gov ernment had yet to receive the text of the Soviet draft, which would equire careful study.

Aides to the chancellor said that Mr. Kohl would address the parliament in Bonn on Thursday, hut would still give only a preliminary reaction. The government is divid-

ed on the Soviet offer.

Both Mr. Kohl and Mr. Chirac said they would intensify efforts to find a common stand with other European allies, especially Britain

"There is a host of unanswered questions," Mr. Kohl said. The French prime minister, who is scheduled to visit Moscow on May 14, said the French government had strong reservations about the recent Soviet proposal to elimi-

nate short-range nuclear missiles from Europe. Mr. Chirac and Mr. Kohl gave no timetable for reaching a Europe-an decision, hut aides said it was clear they were thinking in terms of

weeks rather than days. The governing coalition in Bonn is badly split, with Foreign Minis-ter Hans-Dietrich Genscher arguing that the West should accept the Soviet offer of a "double zero option" on Soviet and U.S. nuclear

This would involve scrapping al missiles with ranges of 300 to 600 miles (ahout 500 to 1,000 kilometers) within 12 months of an agreement to eliminate intermediaterange missiles — those with a range of 600 to 3.000 miles.

Einstein Letters Reveal an Anguished Romance, Early Theories

By Walter Sullivan New York Times Service

NEW YORK - The story of an anguished love affair between Albert Einstein and the woman who would later become his first wife has emerged in newly disclosed correspondence between them.

Many of the letters describe the love between the young scientist and his future wife, Mileva Marie, the pain associated with his mother's vehement disapproval of the relationship; and their excitement over the impending birth of a child.

The fate of the child, n girl, bowever, remains a mystery. She was born before the couple married in 1903 and there apparent-

Intertwined with the disclosures of a difficult romance are fragments of Einstein's thought as he struggled toward confidence in his concept of relativity. The letters were discovered in efforts to find material for the first volume of "The Collected Papers of Albert Einstein," to be

ly is no record of what became of her.

Institute in Zurich. In subsequent years child," he wrote to Maric. they wrote frequently as Einstein's efforts to find work and Maric's visits home caused many separations.

In his letters, Einstein confided in her his

ing place in many fields of physics, including the nature of light, relative movement and molecularphenomenon.

In a letter to Marie in 1899, when he was 20 years old. Einstein anticipated his first scientific questions with which both were theory of relativity, published six years concerned. later. It came in a period when many physicists still believed that space was filled with an invisible medium through which light waves could be propagated. They called

the medium a "luminiferous ether." Einstein's letters also reveal his family's disdain for Maric. In July 1900 he had been warned by his sister that his parents were Einstein and Maric, a Serb born in a bitterly opposed to him marrying Maric.

He also was pondering "the definition of not been so cruelly confined to the earth, or absolute rest." a paradox that led him to even to a nest, between four walls, but

Greens Elect a 'Radical' Leadership

DUISBURG, West Germany (Renters) - West Germans who are members of the Greens party and favor an alliance with the opposition Social Democrats suffered a severe defeat Sunday when the party's

congress voted a "radical" executive committee into power.

The Greens, the largest environmentalist and pacifist movement in Europe, have long been divided into one wing favoring cooperation with the Social Democrats at the state and federal level, and another that argues that such agreements would compromise the anti-nuclear party's policies.

Ex-Afghan Leader Is Reported Jailed

BEIJING (AP) — The former Afghan leader, Babrak Karmal, has been arrested in Afghanistan and is in prison, the Xinhua news agency reported Sunday. In Moscow, an Afghan Embassy official said he did not believe the report was cor-

The news agency quoted diplomatic sources in Islamabad, Pakistan, as saying that Mr. Kannal was sent to Pul-e-charkhai Jail in Kabul. The agency said the reason for the arrest was not known and the diplomatic sources were not identified.

Xinhua said the order to arrest Mr. Karmal, the former Afghan president and secretary of the People's Democratic Party of Afghanistan, came from the Revolutionary Council of Afghanistan.

Hong Kong Sets Limits on Press Bill

HONG KONG (Renters) — Hong Kong has published guidelines for ossible prosecution under a recently enacted bill that made publishing de news a criminal offense.

Government sources said Saturday that the guidelines published by the ttorney-general aimed to reassure news media in the British colony that the bill was not designed to curb press freedom. They said media representatives had urged the government to clarify the law passed by the colony's legislature in March, claiming it had been rushed through, was

vague, and was loosely drafted.

The guidelines say unconfirmed rumors, even if false, are news and a ctionable. If a report is false, responsibility will lie with the individual making the false statement, oot the medium that publishes it. Prosecution will notibe authorized where the truth is uncertain or falsity not proved beyond question, the sources said. Prosecution will not be appropriate if the person publishing the news had reasonable grounds at the time for believing it true.

TRAVEL UPDATE

Venice Seeks to Curb Flood of Visitors

Sunday to consider restricting the flood of tourists that has more than

donbled. Venice's normal population, stretched public transport to the limit and provoked complaints from residents.

The bridge from the mainland was closed Saturday and one-way pedestrian systems were enforced in narrow lanes along canals as more than 100,000 tourists visited Venice for the third straight weekend.

The city council said it would meet again Thursday to decide whether

to restrict the number of visitors. Suggestions under consideration in-

clude distributing entry tickets or stopping trains to Venice at the

WHAT DOES

OLYMPUS MEAN TO

THE PSYCHE?

Im modern medical diagnosis and therapy, the precision of scientific methods is not the only deciding factor between success and failure. A basic human impulse plays a significant and determining role: the patient's fear. Olympus is working towards removing this fear with painless and reliable diagnosis. Flexible endoscopy has been shown in practise to result in a measurable relief of human stress. For Olympus, this is clear confirmation of its leading world position

in this field. And now we have achieved an endoscope diameter of only 1.2 mm for use in coronary medicine.

The move towards flexible solutions in medicine is a reflection of the forward-thinking attitudes and outlook of our staff, who believe that people are just as important as machines.

Campaigning for President, Iowa-Style

By E.J. Dionne Jr.

Page 2

DES MOINES, lowa - "Ruth, this is Congressman Gephardt calling. How are you? Hot? How are you doing on the farm? The hogs are belping a little, aren't they? So you're breaking even?"

This is campaigning for president of the United States, lowastyle. Representative Richard A. Gephardt, a Democrat, his feet up on a desk, a telephone to his ear. is looking down at the sheaf of papers before him. They are "call request forms," a cross between intelli-gence reports and a who's who in lowa Democratic politics.

Mr. Gephardt is talking to Ruth Bolie in Thompson, lowa, and the call sheet tells him she is "close to Harlan and Marge Johnson" and "can organize if her heart is there."

The congressman mentions in passing that Harlan and Marge are in his camp and chats for 15 minutes about farming, the weather and Aunt Minnie down the road. Mr. Gephardt seeks no commitment but promises to see Ruth and her husband, Dave, soon.

lowans, who will provide the first big test of the presidential campaign on Feb. 8, 1988, expect this sort of thing from candidates, and Mr. Gephardt is giving them more of it than almost anyone else.

But he is not alone. Every Republican and Democrat running for the White House knows that several candidacies will die in lowa. at the hands of voters like Ruth Bolie and Marge Johnson, who in turn will give other candidacies a mighty push toward nomination. For it is in lowa, a place of farm

'WITHOUT A MIRACLE ...' - With his wife, Tammy Faye, the Reverend Jim

Bakker made his first public appearance since leaving the PTL television ministry March 19 in a sex scandal. He said in Palm Springs, California, that "without a miracle of God, we will never minister again," and said that PTL owed him millions in royalties.

AMERICAN TOPICS

Speed limit signs reading 44 mph (71 kpb) were posted in Florida's Leon County to make drivers sit up and take notice. The drivers did, and 70 of the unusual signs were stolen. County commissioners then voted to reinstall conventional 45 mph warnings, outvoting Commissioner Gayle Nelson, who contended that the 44 mpb signs were much more effective in getting drivers to slow down.

Residents of Connecticut had the highest average income of any U.S. state in 1986, with Alaska out of first place for the first time in 14 years. The U.S. Commerce Department said that the men, women and children of Connectient averaged \$19,208 each in income. New Jersey ranked second, followed by Alaska, Massachusetts and New York, Mississippi, last for several years, stayed there with \$9,552. The national per capita average was \$14,461.

President Eisenhower wanted Richard M. Nixon to become secretary of defense in 1956 to gain some administrative experience but the vice president refused, believing Eisenhower was trying to get rid of him, a Nixon biograpber says. Stephen Ambrose, au-thor of the newly published book, "Nixon: The Education of a Politician 1913-62" (Simon & Schuster), told U.S. News & World Report that "Nixon's big weakness as a president was that

ter government," and that "his administration was replete with crossed purposes and people keeping secrets from each oth-

Notes About People

Oliver Stone has written or directed such gory films as "Mid-night Express," "Scarface," "Salmight Express," "Scarface," "Sal-vador" and "Platoon." He says that with his next film, "Wall Street," which concerns corporate raiders, be is phasing out of violence. The son of a stockbroker, Mr. Stone, 40, dropped out of Yale University to volunteer for the infantry in Vietnam and was wounded twice. He told The New York Times that Wall Street has its own brutalities, but that "there's no question that 'Platoon' is the end of the blood cycle." He added, "I think I got everything I had to get out of me on that."

Peter O'Toole has made his Broadway debut at age 54 m George Bernard Shaw's "Pygma-lion," with Amanda Plummer and John Mills. The production, from its star-studded cast to its "elaborate yet slightly tatty scenery," says The New York Times, "defines the West End midweek matinee: This is theater to sip Earl Grey tea by."

No one can accuse Jane Weisberger of capitalizing on the position of her husband, Defense Secretary Caspar W. Weinberger. The note on the dust jacket of her new book on fund raising, "Please Buy My Violets," says that "she spends part of each year in Washington, where her husband works with the government."

-ARTHUR HIGBEE

The charines, which last year spent almost \$10 million of EC funds inside South Africa, have Violence Is a Double-Edged Sword for National Party

By William Claiborne

SPRINGS, South Africa -When striking black railroad workers set fire to some commuter coaches in this blue-collar Transvaal industrial city last week, Pict Coetzer, the local National Party member of Parliament, rushed to the locomotive depot to talk to white employees.

"I told them exactly where the strike began, and that as bad as the violence is, if we don't do something to accommodate the blacks," the black trade unions "will become more and more politicized," said Mr. Coetzer, who is running for re-election. "They will use the trade unions to get the revolution

"I told them that blacks have no member of Parliament to whom they can take their grievances," be added, "and until they have the same thing we have, the unions will

Dubcek, in Letter To Soviet, Assails '68 Czech Policy

Agence France-Presse

PRAGUE - Alexander Dubcek, the reformist Czechoslovak leader who was removed after the Soviet invasion in 1968, wrote a letter to Mikhail S. Gorbachev before the Soviet leader visited here in April, a former party official, Milan Hubl, said here Sunday.

The five-page letter gave Mr. Dubcek's view of the Prague Spring liberalization process of 1968 and criticized the official Czechoslovak Gorbachev, he said, was certain to have received the letter during his

The letter has not been made public, and Mr. Hubl did not reveal ts precise contents. It marked Mr. Dubcek's third known statement since he was ousted from the Czechoslovak Communist Party in

In 1974, he defended his liberal policies and complained about conditions of his internal exile in the Slovak capital of Bratislava. In 1985, be criticized the government of Gustav Husak in a letter quoted become politicized." Mr. Coetzer is 1977 election in which Prime Minthe ruling National Party. Waldheim Reportedly Backed Arabs Union on when his intervention would be appropriate. It was appropriate when the Soviet Union

JERUSALEM - Kurt Waldheim wanted 10 help Moscow and its Arab allies against Israel while he was United Nations secretary-general during the 1973 Middle East war, his former pri-

vate secretary has asserted. In an interview in London that appeared Sunday in the English-language Jerusalem Post, Robert Rhodes-James said that "Kurt Waldheim's actions as UN secretary-general during the Yom Kippur war were designed to aid the Soviet Union and its Arab allies to the detriment of Israel."

Mr. Rhodes-James, a Conservative member of the Britisb Parliament and a well-known historian, said: "Waldheim failed to act impartially during the Yom Kippur war. He maintained a prolonged silence until the military situation turned to Isra-

"I said to him: 'You have to say something. A war is raging.' But there was no response, because be was waiting for an indication from the Soviet

and its allies were being defeated. When they were

winning, of course, he said nothing." As to Mr. Waldheim's character, Mr. Rhodes James said that "during my years at the UN, I found Waldheim a ranting, rude, bullying egomaniac, and this view was shared by most of those in the secretary-general's office."

In another development, the secretary-general of the conservative Austrian People's Party, Michael Graff, said Sunday in Vienna that the Austrian government should ask the U.S. authorities for the documents used in reaching the decision to bar Mr. Waldheim from private visits to the United

Mr. Graff said the government should form an international commission of historians to consider the case, as Mr. Waldheim has asked. Chancellor Franz Vranitzky also has supported the formation of such a commission

the most ostracized head of state in Europe, and may have to settle for visits to such places as Jordan and Egypt, which have invited him. In his UN days, Mr. Waldheim enjoyed traveling, and his new status crimes." is likely to be painful for him.

Many West European editorial writers noted that Mr. Waldheim's unrepentant insistence that he saw or did no wrong during the Balkans campaign in World War II had aggravated his isolation.

"The American decision." said the Copenhagen daily newspaper Information, "is encouragement for those who believe that the Nazi barbarity was something unique which the international community must and can, comhat." It said the at the United Nations. Waldheim case provided "the best proof that this combat has lost none of its meaning."

In West Germany, Chancellor next year.

In Europe, With Its 'Living Ghosts,' the Reaction to Waldheim Is Cautious The prime minister of Canada. Helmut Kohl. who praised Mr. Waldheim as "a great patriot" when the Austrian's war record first came under scrunny a year ago, remained silent on the U.S.

But there have been twinges of sympathy for the beleaguered Austrian president in the press. Johann Georg Reissmüller, a publisher of the conservative Frankfurter Allgemeine Zeitung, accused the United States of hypocrisy for having in the past received statesmen who had been involved in "bloody mass

"Why?" asked Mr. Reissmüller. "America didn't want to slight states that it might need. No one has so far proved that President Waldheim did anything dishonorable, but the superpower America thinks it can deal with little, neutral Austria as it likes."

The Austrian president had other defenders in Europe. The Soviet press agency Tass asserted that "Zionist circles" in the United States had sought to punish Mr. Waldheim for his pro-Arah views

Blunders Plus Crimes

Suddenly, after five months of maneuver and that still prohibit arming Iran carry no and study, someone has admitted criminal criminal penalties. Now, as Congress preguilt for arming the Nicaraguan rebels at a pares hearings to explore the hig picture. time when Congress prohibited it. Carl Channell, a flourishing fund-taiser for conservative causes, has confessed to misusing a

tax-exempt organization as a conduit for arms and has identified Oliver North, formerly of the National Security Council staff, as a fellow conspirator. It has been obvious for some time that the Iran-contra scandal involved political offenses hatched in the White House. Now Mr. Walsh's bold case also points to conventional crimes. The political offenses were profound.

President Reagan condoned, perhaps also directed the paving of ransom to Iran for hostages in Lebanon. That broke his political word and shattered public trust. He bitterly disagreed with the congressional ban on con-ura funding, and let White House opposition and secret funding reach intolerable lengths. Colonel North and Mr. Channell, tearning up to raise millions for the National Endowment for the Preservation of Liberty, took hig givers into the Oval Office to receive Mr. Reagan's personal thanks. The colonel has written: The President obviously knows why he has been meeting with several select people to thank them for their 'support for Democracy in CentAm.' The White House said last week that he was thanking them for sponsoring television advertisements.

The laws that banned arming the contras.

comes the prosecutor to show that these are not only political offenses but also crimes.

The Channell conspiracy case raises ugly suspicions of other crimes, having less to do with lofty ideology than with grubby money. So successful was the effort to tap big donors that Colonel North's organization could af-ford to hire David Fischer, a former White House functionary, on a consulting fee of \$20,000 a month, for chores like arranging White House meetings. A Channell company paid a former presidential aide. Lyn Nof-ziger, \$240,000 in one year for similar influence peddling. When so much cash is collected secretly, there is no telling bow many sucky fingers reached for it. The tips and commissions for Middle Eastern arms merchants may make the amounts involved in Central America look insignificant.

Ever since the Iran-contra scandal broke last November, it has been clear that ideologues misused political power. The new charge is that they stole public money with bogus tax exemptions for private donors. Prosecutor Walsh knows that the charge requires him to prove criminal intent, not mere zealotry. The Iran-contra affair was, as a Frenchman supposedly said of an execution. worse than a crime: a blunder, Still, as becomes steadily clearer, it was a crime.

- THE NEW YORK TIMES.

A Little More Time

On the foreign exchange markets, the dol- savings has made it easier to borrow in lar keeps sliding. In Tokyo, stock prices are rising much faster than in New York, although Japanese companies' profits this year are likely to be flat. American interest rates are rising. And a trade bill — a rather bad one — is moving through Congress. All of those events are connected to each other, and the connections deserve attention.

The rest of the world is growing cautious about pouring more of its money into America. Japanese and European investment has helped enormously to finance the rapid runup in debt and the boom in consumption that have marked the Reagan years. Apparently the foreign investors have decided not to bankroll America on that scale any longer. Because their demand for dollars is dropping, the exchange rate is also dropping.

If the Japanese are not sending their money to America, where are they sending it? Nowhere, evidently. They seem to be holding it at home, parking a lot of it on the Tokyo stock market even though they know that stocks there are wildly werpriced.

In the past the influx of other countries'

America and kept interest rates much lower than they otherwise would have been. As that influx declines, interest rates are pushed up. Several banks raised their prime rate on Friday, But the sbarp increase in long-term rates in the past month has another cause: anxiety about inflation ahead. The falling dollar makes imports cost more. The House trade bill aggravates fears of inflation. Protectionism will raise prices, and this bill has seized the attention of investors.

One encouraging development: Tokyo and Washington are new working together on interest rates. Prime Minister Yasuhiro Nakasone has said he would reduce rates in Japan. Chairman Paul Volcker of the Federal Reserve Board announced a slight tightening. The effect will be to encourage the

Japanese to keep sending money to America. That offers welcome relief to America: a little more time to escape from its present unhealthy dependence on foreign lending That means cutting down borrowing. The need for a tax increase is getting urgent.

Still Held in Vietnam

Three years ago the Communist government of Viennam promised to release to the mand that the United States put a pobtical United States all the Vietnamese still incarcerated in "re-education camps" as a result of service in the South Vietnamese regime associated with America. Not one of these unfortunate people has been released and allowed to leave the country with dependents under the amnesty pledged at that time.

These several thousand Vietnamese are the senior people left from a larger group caught up after the fall of Saigon in 1975.

sof societ of committing war crimes in the usual sense. They had simply held official jositions in civilian and military branches under the old order. They are political prisoners, and they have endured an mable ordeal. Says Khuc Minh Tho, the leader of a support group of their kin in the United States: "We do not think that belonging to a vanquished regime is a crime. But even if our relatives bave committed 'crimes' under the new government's law, we think 10 years of imprisonment is enough punishment for those who have sinned."

Soon after Pham Van Dong, then prime minister, promised to free the prisoners, re-

leash on the prospective new arrivals to keep them from somehow acting against Vietnam. But it is hard to imagine that these people could, even if they would, add any discernible weight to the political scales - scales on which the Vietnamese presence in the United States rests very lightly in any event. More recently. Hanoi simply has refused to ad-

In December 1986, Hanoi started a process of leadership renewal and policy review whose significance in matters like this one remains to be demonstrated. If there is any inclination to signal that things are changing. the authorities should consider that nothing would come through to Americans more clearly - along with a resolution of the issue of Americans missing in action during the war, and an end to the occupation of Cambodia - than the prompt release of political prisoners. Hanoi's current policy stands as a glaring example of Vietnamese had faith.

OPINION

More Lethal Than Hundreds of Chernobyls

W ASHINGTON — Richard Nixon and Hen-ry Kissinger celebrated the first anniversary of the Chernohyl disaster by unveiling a new nuclear nightmare in a column in the Los Angeles Times. Their mischief-making purpose was to throw another monkey wrench into the prospects for a summit meeting that could lead to an agreement on intermediate-range missiles in Europe. They would rather ruin a new global photo opporturnity than see themselves out of the picture.

They argued that if all intermediate- and

The entire poisonous fallout would be the equivalent of hundreds — even more probably thousands — of Chernobyl disasters, even if the

The scientific estimates would dramatize a wholly new, inexpensive

shorter range nuclear weapons were removed from Europe, "the entire Soviet nuclear arsenal of 19,000 weapons can, if the Soviet Union chooses, be aimed at Western Europe from the Soviet Union a few hundred miles away." It could do so with little fear of American retaliation because the "credibility of the U.S. strategic threat is ereding, all the more so if it must be initiated on behalf of distant allies and after we have withdrawn our strategic missiles across an ocean."

But even if the United States accepted with equanimity the destruction of its 300,000 troops By I.F. Stone

and did not respond either with ICBMs or with its nuclear submarine forces lying in easy range of Russia, there is another fearsome deterrent to such a lunatic threat of a Soviet first strike: It would bootnering radioactively against Moscow.

and peaceful form of deterrence against nuclear first strikes.

Kremlin, saving a little for a nuclear deterrent against America, unloaded less than its total stockpile on Western Europe. It would be a major contribution to planetary sanity if a group of Western physicists went to

their computers and worked out a set of counter vailing scenarios. The first would tell us how much damage the Soviet Union would do to itself by dropping various numbers of nuclear warbeads on Western Europe. How much damage to itself from 1,000 warheads, 500, 100, even a mere 10? Let us see the figures for various levels of and its forward bomber bases in Western Europe, attack under varying conditions of wind and

weather. The first strike that Mr. Nixon and Mr. Kissinger seem to fear would be suicide for the Russians. Even an attack one-tenth that size might cripple it for generations to come.

The other set of numbers might deal with the costs to America and its allies in Europe and Asia if it could launch a nuclear first strike against the Soviet Union so devastating that Soviet deterrent forces, whether stationary or mobile, in silos, on submarines or on bombers, would be instanta-neously eliminated. What would be the radioactive and environmental consequences on Western allies, on China and Japan — indeed, on the United States itself? If Chernobyl's relatively picayune mishap could endanger milk supplies on the U.S. Pacific coast, what would a torrential rain of fallout from an American first strike on the Soviet Union do to America?

To see the consequences of "successful" nuclear first strikes spelled out by the experts at various levels of megatonnage and weather conditions would dramatize a wholly new, inexpensive and peaceful form of deterrence against nuclear first strikes. Let us mark the first anniversary of Chemobyl — and garner its lesson — by getting these numbers.

The writer is a veteran Washington correspondent. This was adapted for The New York Times from an article in the coming issue of the Nation magazine,

Irangate: These Hearings Should Be Nonpartisan

W ASHINGTON — The sights and sounds will be familiar: the Senate Caucus Room overflowing with people and overheating with tele vision floodlights, and questions about what the president knew and wben:

what the president's men did and why; what laws were bent, broken or ignored by zealots for wbom the end was more important than the means. On Tuesday, almost 14 years to the day since the Watergate hearings be-

gan in the same room, two select committees of Congress start public hearings into the Iran-contra affair, There will be a sense of dejà vu. But the Iran-contra affair is not Watergate. It is much more serious

than Watereate - not because of who was (or was not) involved but because of what was involved; the formulation and conduct of foreign policy. Watergate was about a botched hur-

glary, a campaign of dirty tricks and an attempted cover-up of those miserable deeds. It was a political scandal of major proportions, but it was solely that: a domestic political scandal. In contrast, the Iran-contra affair is

an international event that has consequences that go beyond American shores, It involves the constitutional relationship between the executive and legislative branches in the shaping of foreign policy, the credibility of that policy, relations with other countries. the actions of the intelligence service and some of America's most closely held national security secrets. A political operation that spins out

of control may lead to electoral abuses. A runaway foreign policy may lead to international mistrust, broken relations and heightened tensions. Because of the profound issues in question, we in Congress are compelled to investigate the episode. For precisely the same reason, we are compelled to ensure that the investigation is conducted in an atmosphere free of partisanship and theatries. The nation would be ill-served by a congressional panel wantonly weakening a president for presumed political benefit.

In the last quarter century we have seen how foreign perception of weakness in the Oval Office contributed to

After the Bay of Pigs invasion in 1961, the Soviet Union placed nuclear weapons in Cuba, touching off the 1962 Cuban missile crisis. In 1973, at the height of Watergate and only five days after the "Saturday night massacre," a threat of unilateral Soviet intervention in the Middle East led to a military alert of conventional and nu-

At no time during our closed com-

of the executive, including those normally cloaked in secrecy, have been

hearings with our counterparts in the House, the House Select Committee, will enable us to tell the Iran-contra story fully and concisely. Nearly 17 months elapsed from the date the Sen-ate created the Watergate committee until the committee's report was pubished. We hope to accomplish our work in about half that time. The Watergate bearings dragged on for more than eight months. Because we insisted on concluding most of our investigation before beginning public hearings, our hearings should take about one-third as long. At the start of the Watergate hear-

ngs, Chairman Sam Ervin reminded his audience that "the purpose of these hearings is not prosecutorial or judicial, but rather investigative and informative." Our purpose is the same.

whites been as prepared for change as they are now. They may send Botha the message that his reforms aren't good enough," he said. What is most striking about the proud, at times prickly Zulu chieftain is his nonchalance in talking about these elections and their aftermath. Fifteen years ago, when I first met him in South Africa, Chief Buthelezi and other black leaders felt and voiced the sting of exclusion from such elections. Today their certainty that blacks will soon hold power seems to have blunted that pain. Chief Buthelezi does not claim to

have the answer to all of South Africa's problems. In a candid conversation, he acknowledged that black-on-black violence could continue even under a black government. His tribal base in Natal, his denunciations of violence and his open courting of Western democracies for support to counterbalance Soviet arming of South African black guerrillas have brought sharp attacks on him by the young radicals of the townships. But it is precisely because he is

trying to occupy a middle ground between the "scorched earth tactics" of the white government on one side and the young radicals on the other that he has become such a potent symbol in the confused politics of apartheid.

If the whites refuse to deal with him,

they will clearly not deal with any credible black leader. As long as they continue to slam the door in Chief Buthelezi's face, Botha & Co. are saying to the black majority and to the world that they are not serious about Africa's racial problems. They are saying in effect that they

will not make the modest sacrifices that Chief Buthelezi would ask of them, much less the more painful ones that other black leaders demand. Dealing with him would be a sign from the white leaders that they understand the dangers their stub-born advocacy of white supremacy presents for themselves and for the international community.

It is possible that time has already

run out on the Buthelezi option. Many young blacks argue that only agreements reached by the government with the African National Congress would stick now. What is clear from such arguments is that the inyear term of office next March at the creasing radicalization of South Afriage of 66. He does so in the absence ca works against the middle course advocated by Chief Buthelezi.

Mr. Botha could halt this crosion and change the political landscape dramatically with one announcement after his government is reconfirmed in office. He should immediately announce acceptance of Chief Buthelezi's demand that imprisoned ANC leader Nelson Mandela be freed unconditionally as Chief Buthelezi's price for cooperating with a presidential commission to devise amendments to the detested 1983 constitution.

This act would show the black majority that moderate leaders who want to maintain Western influence in South Africa can deliver. It would also show that Mr. Botha is finally serious about negotiating for the survival of Africa's only white tribe. The Washington Post.

We are obligated to investigate the conduct of the highest government officers, and determined to let the facts lead us where they will. But we need not, and will not, perform this task in a way that suggests to our adversaries that America is a nation divided. We have sucreased so far in avoiding this impression. I believe, because

of the lessons learned during the Watergate investigation. The Senate committee that investigated Watergate, on which I served, had the same mandate as do today's select committees: to seek the facts about the events in question and propose legislation to prevent a repetition. But the structure of our Watergate committee staff encouraged partisanship. There were majortty (Democratic) and minority (Republican) lawyers, there were majority and minority investigators, majority and minority secretaries. Even the committee's budget was divided into

Democratic and Republican portions. After the investigation concluded. Fred D. Thompson, the committee's able minority counsel, wrote that lovalty to the Republican minority was "one all-important criterion" for hiring his staff: "We're going to try our best to have a hipartisan investigation, but if it comes down to the question of 'us' and 'them,' I don't want to worry about who is 'us' and who is 'them.'

My one condition for assuming the role of chairman of the Senate committee was that there would be no majority and minority staffs, but a unified staff whose members report to the committee as a whole and not to the Democrats or Republicans. Our chief counsel, Arthur L. Liman, regards all members of the committee as his clients, and under his direction our staff members sit check by jowl unconcerned whether their neighbor is one of "us" or one of "them."

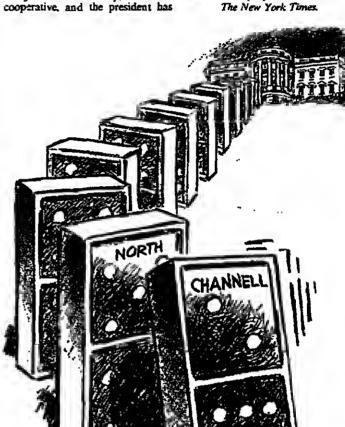

he structure of the staff we meaningless if the members of the committee were determined to make this investigation a partisan matter, Happily, this bas not happened, nor do I expect it to.

@1987 HERBLOCK

Indonesia: Into a Period of Political Uncertainty By Michael Leifer ment is fully aware of the significance

SINGAPORE — The result of last month's parliamentary elections in Indonesia was hardly surprising. The vote recorded for the government's party, Golkar, exceeded 72 percent. That may be interpreted as a vote for political continuity. The

campaigning, however, indicated a growing desire for political change. A novel feature of the elections was the display of popular enthusiasm for the Indonesian Democratic Party, the PDI, at railies in Jakarta and other cities. The PDI is an amalgam of secular nationalist parties. They include the Indonesian Nationalist Party, identified with the late President

Sukarno, and two Christian parties, In the previous three parliamentary elections, the United Development Party, a combination of Moslem parties, had attracted much greater popular interest as the more credible vehicle of protest.

In numerical terms, Indonesia is the world's biggest Moslem country. More than 85 percent of its 170 million people described themselves as Moslem in the last census. But many remain deeply influenced by a Hindu, Buddhist and animist past. Successive governments in Jakarta, especially the

natural gas and other commodities, has suffered in the past few years from falling internationl demand and prices for many of its main exports. The rallies attracted younger members of the middle class as well as the poor. They attracted the children of the beneficiaries of development, who are frustrated by its arrested momenturn and by uneven distribution of diminishing economic rewards.

It is true that the PDI has raised its national vote to only 12 percent, from 8 percent in the 1982 elections. Its emergence in the political heartland of Jakarta as an alternative vehicle of protest does not constitute an electoral watersbed. These elections have not changed anything of political substance. They were a well stageheaded by the late President Sumanaged piece of poblical theater in which the security forces, while keeping in the background, played an effective moderating role.

Nonetheless, the display of interest

Japanese Will Be Cautious In U.S. Auction Approach

By JONATHAN ENCEL.

ARIS — The old adage "once bitten, twice shy" may not have spring from market parlance like the topical "sell in May and go away," but it nonetheless crystallizes the crucial attitude of Japanese investors toward the U.S. Treasury's auction this week of \$29 billion in securities.

In fact, they've been bitten more than once. Lured by relatively high interest rates and what proved to be temporary attempts to stabilize the dollar, large Japanese insurance companies and the trust banks that manage huge pension funds bought at least one-third of the 10- and 30-year bonds offered in quarterly auctions last year and again in February.

Then they watched as the dollar's 42 percent plunge against the yen from September 1985 decimated their earnings in comparison to similar yen invest-

Since February's auction alone, the dollar has dropped 9 percent against the yen; to 140 yen from 153,50. Bond prices themselves, undercut by the falling dollar, have slumped as much as 111/2 points, or \$115 for every

Bonds that appear attractive before the auctions will likely be more alluring afterward.

\$1,000 face amount. Now, not even the hefty 5 percent yield advantage on U.S. government securities over similar Japanese issues and the opportunity to buy a block of bonds at a fixed price are likely to tempt these investors into bidding aggressively at the auctions, which start Tuesday with sales of three-year notes.

"We don't want the same thing to happen" - a weak dollar eroding portfolios — said Masami Asakura, the chief representative in New York of Taiyo Mutual Life Insurance Co., the eighth

Meanwhile, the uncertainty over the dollar and the likely increase in yields after the auctions clouded prospects in the Eurobond market, where several holidays last week also limited activity. In three currency sectors where bankers reported solid demand — yen, sterling and Australian dollars — the heavy supply of new issues sent prices slumping to unprofitable levels for most underwriters. .

APANESE insurance company executives like Mr. Asakura, who have been diversifying away from Treasuries, acknowledge that on a long-term basis, the combination of the yield advantage and the liquidity in the U.S. Treasury market is unmatched elsewhere. They also believe the dollar is finally nearing its lows against the yen.

But, they argue, bonds that appear attractive before the suctions will likely be more alluring afterward. Bond prices could drop further to push the 30-year yield to 8.75 percent from around 8.60 percent on Friday, while the dollar could slip to 135

"The 500-basis-point differential is still very attractive to us" when comparing U.S. to Japanese bonds, Mr. Asakura said. "But we just closed our fiscal year in end-March and all Japanese

insurance companies had to write off huge currency losses." One Japanese newspaper, he noted, estimated these total currency losses last year at around \$15 billion. "That is why we are a little bit reluctant to start our investment in the dollar

Investors, and analysts alike remain captions on the U.S. currency, despite the tough pronouncements last week from Paul A. Volcker, the chairman of the Federal Reserve Board, that the dollar had "absolutely and fundamentally" declined enough. Mr. Volcker said that the Fed had nudged some interest rates higher to support the dollar and to counter market fears of renewed inflation as the weak currency pushes up import costs. But some analysts doubt that the Fed will quickly raise its key 5.5 percent

discount rate, for fear of inducing a recession.

Also in the Washington spotlight last week, Prime Minister Yasuhiro Nakasone of Japan pledged that the Japanese central bank would push short-term interest rates lower. In theory such a move could boost the attractiveness of the dollar against the year and help Japan expand its economy to import more U.S. goods, thereby cutting the huge U.S. trade deficit that has devalued the

But what analysts immediately suspected was later confirmed by the Bank of Japan. It was not going to cut its benchmark 2.5 percent discount rate, but merely push less influential money market rates lower. Michael Rosenberg, an economist at Merrill Lynch Capital Markets, noted that these rates have been artificially elevated by speculative borrowing in Tokyo's surging domestic securities markets.

The dollar, after a brief rise to nearly 141 yen Thursday on these announcements, slipped back to around 140 yen on Friday in New York. The benchmark 30-year U.S. Treasury bond had also gained Thursday, but on Friday lost 1 11/32 points to close at 88 12/32 and yield 8.59 percent.

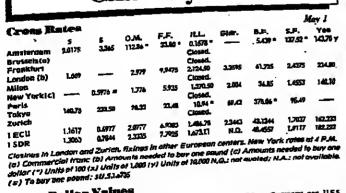

That came as no surprise to Keiji Tsuda of Nissei Bot Asset

Korea, Taiwan Are in Hurry to Mature

Master Exporters Pressed to Spur Domestic Growth

By Patrick L. Smith
International Herald Tribune
SEOUL — South Korea and

Taiwan, East Asia's fastest-growing economies, are decisively changing their development strategies, in an effort to remove the threat of damaging trade fric-tion and fundamentally alter the sources of their future growth.

The two countries, which are emerging as the most powerful economic forces in the region after Japan, are for the first time devising programs to reduce their long-established dependence on exports and to stimulate domesoc In effect, the two are discard-

ing the export-led development strategy that has been almost an article of faith in the Third World for the past quarter of a century.
Depending on how aggressively these historic policy changes are implemented, foreign ana-

lysts say, the two nations could successfully meet fair-trade demands by the United States and other major importers, thereby avoiding the chronic antagonism that Japan suffers. The United States is their big-

lion of the record \$166 billion trade deficit reported by the United States last year. "We have to be impressed by what we've seen," said a Western diplomat in Seoul. "Whether they can break the mold among major exporters will be determined by

At OECD Talks, the Pressure Will Be on Bonn

mai Herald Tribune PARIS - West Germany will growth in almost three years, came find itself in the bot seat when the annual OECD meeting of finance and trade ministers opens in Paris on May 12, because of a continuing

refusal to stimulate its economy. According to officials involved do not expect the inventory buildin preparations for the two-day gathering, some member govern-ments of the Organization for Economic Cooperation and Development will be pressing for an immediate boost to West Germa-

The renewed pressures will come mainly from the United States. Canada, France and smaller West European members of the 24-nation agency. Although senior West German officials in Washington earlier this week again brushed off the pressures. OECD delegates said they were not ruling ont a reversal

between now and early June. The broader purpose of the ini-tiative, officials said, is to promul-gate economic growth in Western Europe and in the OECD area generally, which encompasses North America, Europe and Asia. The initiative comes against a somber background of sluggish growth, high interest rates, mounting Third World debt and rising unemploy-

More specifically, officials said, the allies will be seeking a firm commitment from Bonn to lower interest rates, bring forward a tax cut scheduled for next Jan. 1, and scale back on subsidies, notably in

"The Ispanese are already making some effort to stimulate their economy," Beryl W. Sprinkel, chairman of President Ronald Reagan's Council of Economic Advisers, said in an interview in Paris. He cited a plan recently announced in Tokyo to increase government spending and an interest rate reduction announced in Washington on Thursday.

"But we have seen no evidence on the German side, and they do have room to stimulate demand, without new inflation, in such areas as tax reform," he said. "Stronger growth in Western Europe, particularly in Germany, seems essential, because reducing the U.S. budget deficit, which we are accomplishing, is simply not enough for the requirements of world growth."
Mr. Sprinkel acknowledged that

the surprising 4.3 percent growth of the U.S. economy in the first three months of 1987 would not be re-

management policies. Scoul has taken a more activist approach. Its recent initiative marks a significant triumph for a rising generation of technocrats who have attempted over the past several years to uproot a strain of protectionism that is deeply em-

bedded in Korean culture. Throughout the 1960s and 1970s, the government relentlessly portrayed import consumption as unpatriotic while raising export production to the level of national duty. National Export Day is still

celebrated annually. Conservative resistance to eco nomic innovation, in industry and in the bureaucracies, is not expect-ed to dissipate quickly in either

Many South Koreans argue that the economic planning board, from which liberal technocrats wield their power, has acted too soon after the turnsround in the nation's trade account.

But despite some resistance, Tai-wan and South Korea now appear determined to advance their economie strategies at a faster rate than Japan, the nation after which they have largely modeled themselves. South Korea, in particular,

U.S. Supercomputer Is So Fast it Can Melt

By Peter H. Lewis New York Times Service NEW YORK - A new generation of supercomputer, so hlazingly fast that it has to be dunked in liquid nitrogen to keep it from melting, was installed at Florida

State University last week. When it becomes fully operational later this year, the ETA-10 supercomputer, which is made by ETA Systems Inc. of St. Paul, Minnesota, will inherit the transitory title of the most powerful computer in the world

In theory, it will be able to per-form 10 billion calculations a second. 10 times the current limit. hurling brute computational force against some of the most daunting problems in science and industry.

But perhaps more significantly, it marks ETA Systems' emergence as a formidable competitor in the tiny but exalted arena of supercomputing, which has long been dominated by Cray Research Inc., its crosstown rival, and several Japanese companies. ETA Systems Inc., which was formed in 1984, is a privately held subsidiary of Control Data Corp. "We consider them serious com-

petition," said a spokesman for Cray, "and they have produced a ETA-10 and the company's most very strong machine. But the true test is what you can offer the user to a productive commercial environment, and we feel we're still very much the leader." The ETA-10 is still in its testing

phase. Joe Lannutti, director of the Supercomputer Computations Research Institute at Florida State, in Tallahassee, said the operating system, the software that determines how the \$12.5 million computer formance.

handles its tasks "is not that sophisticated yet." Its use is limited because "it cannot yet serve multiple users on a network," he said. hut 150 programmers at ETA Sys-tems and Florida State are hoping

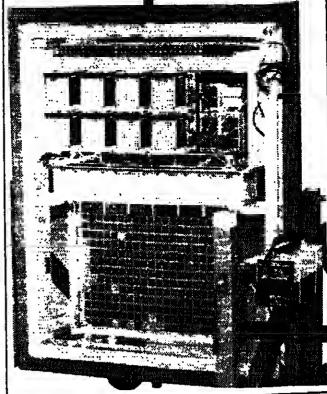

to reach that goal this year. Still, Mr. Lannutti said, the new ETA machine represents an impressive advance in design. They've taken a supercomputer that used to be the size of a couple of average-sized rooms here and collapsed it onto a board about the size of a newspaper," he said.

"We now have two boards suspended in a stainless steel tank of liquid nitrogen, which keeps them at minus 195 degrees centigrade [minus 382 Fahrenheit]," said Mr. Lannutti, a professor of high energy particle physics. "It looks sort of like a big toaster with two slots."

Two more boards, or central processing units. CPUs, will be installed at Florida State later this year. ETA Systems also has contracts with three other customers to supply systems that barness as many as eight such boards and range in cost from \$5.5 million to more than \$22 million. Lloyd M. Thorndyke, president

and chief executive of ETA Sys-tems, drew this comparison of the powerful previous supercomputer. the Cyber 205: "The CPU of the Cyber 205 is on 64 one-foot-square boards, containing 8,000 chips and embedded with 50 miles of wiring." "Using new technology, we've

put it all on one board measuring 16 inches by 22 inches, with 240 chips and the equivalent of one and a quarter miles of wiring," he said. "And it offers three times the per-

Also, the ETA-10 has a vast in- the government is the main buyer ternal memory capacity, up to 288 of supercomputers, using them for loans of about \$3 billion annually million "words" of 64 hirs each. "This is enough space to hold the information contained in roughly 63 copies of the Manhattan white pages telephone directory." Mr. Thorndyke said.

The trick to getting fewer chips to do even greater work is called large-scale integration, or packing circuits much more densely on each chip's wafer of silicon.

There are fewer than 200 supercomputers installed in the world today, but analysis expect the number to swell to about 1,000 in the early 1990s. In the United States.

What do these international companies know about Dubai that you don't?

They know that Dubai's Jebel Ali Free Zone has introduced exciting trade freedoms and benefits, enabling companies to set up trading and industrial bases easier in the Middle East.

Just look at these benefits-unique to Jebel Ali.

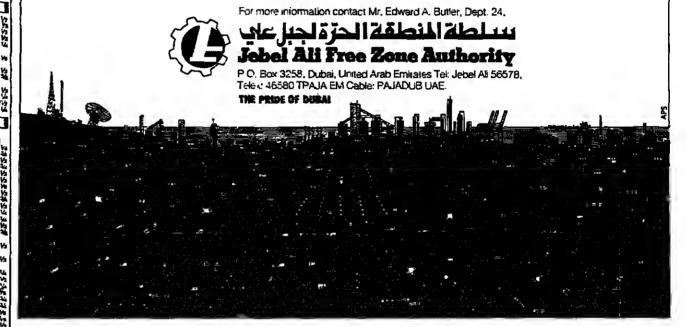

100% foreign ownership.

 Unlimited transfer of profit and capital. No corporate taxes for a minimum of 15 years. No import duties/export taxes.

No personal income taxes.

Unlimited cheap energy.

They also know that with superb facilities including an extensive infrastructure, state-ofthe-art communications, accommodation, hotels, hospitals, security and every modern amenity, Jebel Ali is a unique opportunity for Middle and Far Eastern markets.

CONSOLIDATED NET INCOME + 20 % ONE FREE SHARE OR CERTIFICAT D'INVESTISSEMENT FOR EVERY FIVE HELD FOR FIVE.

Charles ZVIAK, Chairman and Chief Executive Officer of L'OREAL, presided over on information meeting given for financial analysts, international investors and the financial press.

L'OREAL's results for 1986 were announced at this event by Marc LADREIT de LACHARRIÈRE, Senior Executive Vice Chairmon.

Total consolidated sales amounted ta FF 18.13 billian, up 10:35 % aver the published 1985 figures. On a comparable basis (same exchange rates and carparate structure), the increase in cansalidated sales over 1985 was

Sales managed by L'ORÉAL, i.e. including sales of American and Canadian licensees, totalled FF 23.2 billion. L'ORÉAL's casmetics business alone continued to position the Group among the leading world carparations in this field with sales managed in 1986 amounting to U.S. \$3.2 billion at the December 31, 1986 exchange rate.

Prafits befare tax and emplayees' prafit sharing, but excluding capital gains increased 15.7 % from FF 1,375 billion in 1985 to FF 1,591 billion in 1986. With an increase of 8.8 % in carparate incame tax, cansolidated net prafit registered growth of 20 %.

Growth in consolidated income based on published figures

	1980		i : of growth over 1985	
Consolidated sales	FF	18,130 billion	10.3	3%

Lindsay OWEN-JONES, President and Chief Operating Officer, reported an L'OREAL's international development. The Group continued its dual strategy of renovation and innovation for all product lines and in all markets. This policy has always been the source of L'OREAL's dynamism and successful business performance. Indeed, in a cantext of declining inflation, the Group again achieved valume grawth and increased its market shares throughout the world.

L'ORÉAL's warldwide aperations made a net lareian currency contribution to France equal to FF 3.1 billian as appased to FF 2.7 billian in 1985.

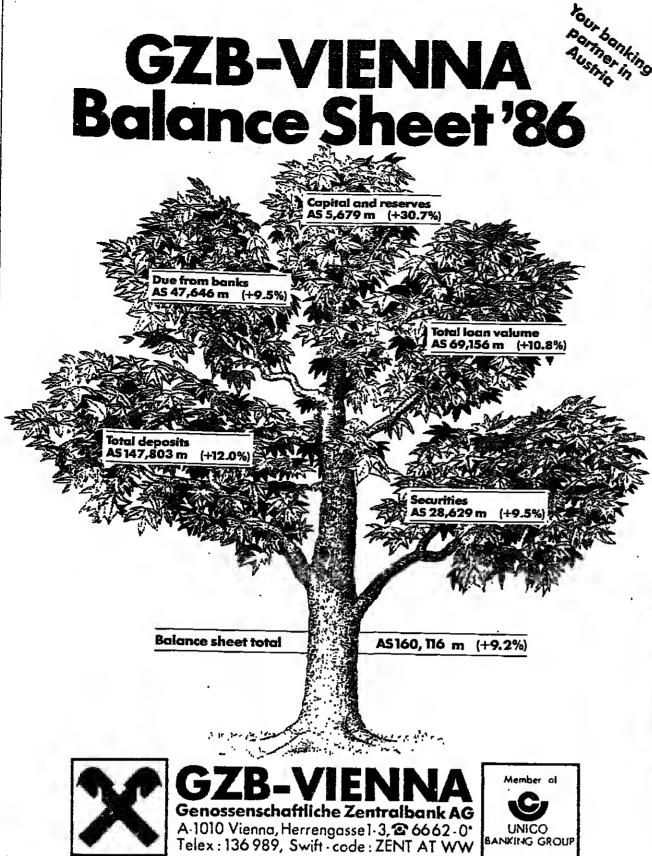

Charles ZVIAK reemphasized that the Graup's success derived mainly from the autstanding efforts devated to product quality enhancement and innovation. L'OREAL's research and development commitment was again reflected in 1986 by investment that ranks among the highest in the warld.

L'OREAL's Chairman also underlined what he cansiders to be the Group's fundamental carparate values:

The quality of our products, both in formulation and manufacture, and af aur marketing and distribution systems above all reflect the quality of the professional skills that L'OREAL's entire staff bring to their work".

Charles ZVIAK also reaffirmed the Graup's determination to develop SYNTHELABO, a 56 % awned **L'ORÉAL** subsidiary inta an international pharmoceuticals concern with a significant industry position.

Lastly, the Chairman announced that L'OREAL's Board of Directors had decided to propose to the Annual Shareholders Meeting, to be held an Friday, June 19th, 1987, a net dividend payment of FF 33, up 10 % aver lost year, and the issue of one free share ar certificat d'investissement far, respectively, every five shores or five certificots d'investissement held.

ATTENTION U.S. INVESTORS! Stateside Investing in Europe!

For U.S. investors in Europe, investing can be especially difficult and timeconsuming. But now you no longer have to deal with trans-Atlantic operators or international mail. Fidelity Investments Brokerage Services, Ltd. is one of the first U.S. discount brokers to come to London!

Trade stocks, bonds or options!

At Fidelity's London office, we'll give you swift, efficient access to U.S. markets in addition to the securities markets of Western Europe. Fidelity's representatives can execute your trades and put the latest market news available right at your fingertips, through our electronic computer network.

Fidelity customer services, too!

If you're already a customer in any of Fidelity's mutual funds, you can come in to make a deposit or switch among your investments. And don't forget to set up your Fidelity Individual Retirement Account quickly and easily in the fund you choose.

Information when you need it!

You don't have to come in person to benefit from the investment resources available at the Fidelity London office. You can call or write to receive information about how tax reform may affect you by requesting your free copy of the best-selling Price-Waterbouse Tax Guide. This is just one of the educational services available in addition to Fidelity's range of investment products.

Call, write, or visit today!

Let Fidelity bring the U.S. market closer to you. Visit the London office at 23 Lovat Lane from Monday to Friday, 9:00 AM to 5:00 PM. Or call 9:00 AM to 9:00 PM at 01-283 4595 from London. Continental Europe and the Middle East . Elsewhere in the U.K. Callfree 0800 010510.

(Continued from first finance page) nounced an 8.49 percent devaluation of the cruzado to spur exports and to try to boost Brazil's flagging trade surplus over \$8 for 1987. Forecasts are for a 17 percent inflation rate this month alone, and

Mr. Bresser Percira has said that high inflation will have to be tolerated for a while to allow prices to find equilibrium after last year's freeze. But he supports a freeze at some time in the future.

While ruling out a formal agreement with the International Monetary Fund, he has offered to provide monthly or quarterly economic targets to meet the concerns of foreign bankers.

Like Dilsoo Funaro, the hardiner who resigned as finance minister on April 26, Mr. Bresser Percire is insisting that any debtrescheduling agreement with foreign banks include a large reduction in annual interest pay-

But Mr. Bresser Pereira's apparent willingness to compromise raises hopes that he will be able to ease strained relations with foreign bankers and build a political congensus at home for the austere economic measures.

booming financial markets, but has

"You won't see a duty terparts in market technology and who tracks Wall Street firms for firms to begin trading next May,

Mr. Mori.

The Japanese are quick to note that their strength should be measured in global terms. Nomura's capital base is equivalent to \$6\$ billion, making it the biggest securities firm in the world.

Compared with this degree of penetration, U.S. firms remain largely outsiders in Japanese finance in the Tokyo Stock Exchange.

Wall Street executives believe this low-key approach will eventually be rewarded with greater access in Tokyo. Moreover, it may also facilitate additional Japanese capital infusions similar to the agreements by Goldman, Sachs and Shearson Lehman to sell equity stakes.

participation. Analysts believe Merrill Lynch, First Boston and

"It's a shot across the bow," said Representative Charles E. Schumer, a Democrat of New York, who proposed the measure. "It's oot intended to be punitive.

with the Japanese.

Quiet diplomacy, they argue, is the best way to deal with the Japanese government, and they cite the embarrassing lesson learned by primary dealer status late last year had to do with the hostile mood in

In recent weeks, the Japanese government has given indications that some barriers may be lowered. Late last month, the Finance Ministry allowed Japanese institutions to trade directly in foreign financial futures and options markets, a move that could add billions of dollars to the daily volume of U.S. futures exchanges.

The announcement came a week

after a congressional delegation that included Mr. Morrison and Mr. Schumer met in Tokyo with Mr. Nakasone, Finance Minister Kiichi Miyazawa, Satoshi Sumita, governor of the Bank of Japan, and other high ranking officials to discuss greater access. Although the Japanese said

many of the demands by foreigners were under study, participants in the private talks said the congressman came away with some assur-

Mansell Wins San Marino Grand Prix Easily IMOLA, Italy (UPI) - Briton Nigel Mansell drove his Williams-Honda to a

extbook victory in Sunday's San Marino Grand Prix to take the lead in the Formula One world drivers championship.

Mansell, who finished sixth in the season-opening Brazilian Grand Prix, took command on the second lap of the 183.4-mile (295.2-kilometer) race.

Mansell, whose last victory came Sept. 21, 1986, at the Portuguese Grand Prix,

clocked a winning time of 1 hour, 31 minutes and 24.076 seconds for an average speed of 120.429 mph. He built up his lead with a controlled drive on a circuit poted

Pole-sitter Ayrton Senna, in a Lotus-Honda, was second in 1:31.51.621. Michele Alboreto brought local favorite Ferrari third in 1:32.03.220.

Starting the day two strokes behind Larry Rinker, Friday's leader, Sutton shot an up-and-down 72 (four birdies, a hogey and a double-bogey). Pohl's 65 included six hirdie putts of 12 feet (3.65 meters) or less. Brown, a Briton, and Perry both shot

70s. One shot off the pace were David Frost, Curtis Strange and Andrew Magee.

'Sonics Surprise Rockets; Hawks Eliminate Pacers

United Press International HOUSTON - Dale Ellis scored 34 points, the last on a three-point jump shot with 14 seconds left in

Canadiens, Flyers in NHL Semis

NEW YORK — The Mootreal Canadiens and Philadelphia Flyers survived second-round scares and advanced to the semifinals of the National Hockey League playoffs.

In decisive seventh games Saturday night, Montreal beat Quebec, 5-3, and Philadelphia ripped the New York Islanders, 5-1. The Can-adiens rallied from a 2-0 deficit in the Adams Division final against the Nordiques; the Flyers won Game 7 after squandering a 3-1 lead in the Patrick Division final.

The last semifinal participant was to be determined Sunday, when Toronto faced the Red Wings in Game 7 of the Norris Division final (the winner will meet the Smythe Division-champion Edmonton Oilers). In Philadelphia, Brian Propp and

Brad Marsh scored short-handed goals 44 seconds apart in the first period to help the Flyers prevent New York from hecoming the fourth team in NHL history to come back from a 3-1 playoff deficit. In Montreal, Ryan Walter scored two goals, including one short-handed, to trigger a five-goal second period that propelled Montreal.

on-one battle after the Pacers had WORLD STOCKS IN REVIEW / Via Agence France-Presse

Amsterdam

Investors on the Amsterdam stock exchange were extremely cautious last week amid the continuing decline of the dollar and U.S.-Japanese trade friction. After a slow start on Monday, when the

ANP-CBS General Index fell from 284 on April 24 to 278.4, trading firmed on Tuesday, taking the index to 280.2 The bleak message contained in the annual report of the Dutch central bank and an an-

nouncement by Philips NV of a worldwide issue of 20 million shares slightly dampened enthusiasm on Wednesday.

Trading remained subdued the rest of the week, with the market shut Thursday for a

local holiday and because of Friday's May Day holiday in other European countries.
Turnover totaled 3.858 billion guilders, up from 3.511 billion the previous week.

Frankfurt

The weakness of the dollar during four days of trading depressed sentiment on the Frankfurt stock exchange where values fell an average of 3 percent.

Some analysts also attributed the mood to the financial difficulties of the iron and steel group Klöckner-Werke, after a decision by its subsidiary Maxhuette to file for bankruptcy.

The Commerzbank Index fell 18.2 points to 1,785.2, with transactions over a holiday-shortened week totaling 9.668 billion Deutsche marks, down from 11.730 billion DM last

Gains were minimal. In the automobile section, BMW gained DM to reach 566, Daimler advanced 2.50 DM to 990.50 but Volkswagen fell 3.5 DM to 344.50.

Among electronics companies, only AEG advanced, moving up 2 DM to 341.50. Siemens fell 2.20 DM to 700.30.

Banks, with the exception of Dresdner, which lost 4.5 DM, were well supported. Commetzbank rose 5 DM and Deutsche Bank 5.70.

Hong Kong

Hong Kong stocks fell heavily early in the week on fears that the local currency would be revalued against the U.S. dollar, but confident buying saw much of the lost ground made up

by the close of trading Friday.

The Hang Seng Index closed at 2,685.37, down a relatively modest 22.24 points. Confidence was restored Thursday on news that Cheung Kong had arranged financing for its 43 percent acquisition in Husky Oil Co. of Canada. The advance continued more modesty on Friday, with bargain hunters convinced

that local interest rates would not rise.

London

Equitics reached new highs last week, as initial nervousness prompted by heavy falls in Tokyo and Wall Street later gave way to optimism fueled hy a half-point cut in British interest rates to 9.5 percent. Sentiment was also bolstered by a confident

report on industrial trends by the Confedera-tion of British Industry and better than expect-ed British trade figures for March.

The Financial Times industrial share index

closed up 46 points on the week at 1,626.9, a record high. The more widely based FT-SE index also improved on its previous record ending up 67 points at 2,068.5. The number of transactions rose to 196,071 from 156,141.

Milan stocks reacted favorably to news that general elections have been scheduled for June 14, and the COMIT Index closed Thursday up 0.76 percent, to 767.34 points.

The election announcement came after two months of crisis in which leading politicians were asked to form a government to succeed the five-party coalition headed by the Socialist leader, Bettino Craxi.

Volume was slightly down on the previous week, and totaled 800 billion lire. Blue chips dominated the market. Fiat closed the week 0.94 percent up, and Mediobanca gained 0.51 percent, to reach a new

Paris

The Paris stock exchange managed to with-stand the effects of a sharply weaker dollar last week, although market indices fell around one

The CAC index finished the week lower on

Thursday at 453.6, from 456.9 the previous

Analysts said the Paris market continued to benefit from robust domestic and foreign sup-port for the government's denationalization efforts.

Additional support came from strong corporate results, notably Peugeot, which is now recording a profit and will distribute a dividend this year for the first time since 1981.

Singapore The outcome of the United Malays National

Organization elections in Malaysia and uncertainty in the international currency market took the edge off the Singapore stock market last week.

The resignations of two cabinet ministers and the firing of three others in Kuala Lumpur after the elections in the Malaysia's dominant political party saw Málaysian stocks become

the main attraction for bargain hunters.

Turnover was fairly heavy with 193 million units changing hands during the week, Total value stood at 331.3 million Singapore dollars. The Straits Times industrial index (ell 10.33 points to 1,127.43.

Tokyo.

Share prices on the Tokyo Stock Market soared amid widespread bargain hunting Sat-urday, mabling the Nikkei average to regain the 24,000-yea level for the first time in six

The closely watched 225-share market ba-rometer ended the week at 24,009.03, an increase of 328.14 from Friday's close.

The week started badly Monday, when the Nikkei suffered a record one-day loss of 831.32 that was triggered by the yea's imprecedented low against the dollar, which would hurt ex-

The market will be closed on Monday and

Tuesday this week for national holidays.

Zurich

Share prices declined last week in Zurich, where in trading from Tuesday to Thursday the SBS index fell to 621.7 from 623.7 on April

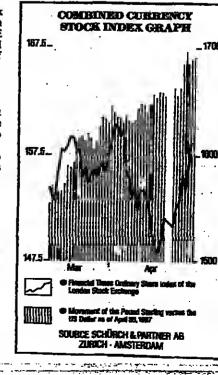

Foreign investors, notably from the United States, continued to sell Swiss shares to take currency gains. Analysts said that the fall of the dollar did not appear to have been checked and that it was therefore difficult to foresee an

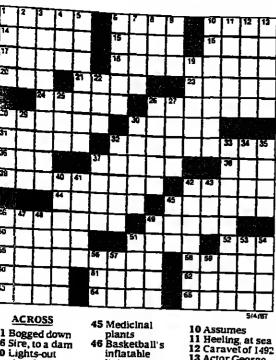

improvement this week.

Banks were irregular, with Union Bank of
Switzerland gaining 55 Swiss francs to reach
4,630, and Swiss Bank Corp. dropping 10 francs to 432.

Finance companies were slightly weaker, as Electrowatt slipped 20 francs to 3,600. In the insurance section, Swiss Reassurance bearer shares were down 150 francs to 15,700, but Zurich Insurance bearer shares advanced 25 francs to 7,200.

Industrials were also mixed. Brown, Boveri fell 40 francs to 1,830 while Fischer gained 50 francs to reach 1,780. Ciba-Geigy bearer shares, in the chemical section, dropped 70 francs to 3,080 but Sandoz bearer shares put on 200 francs to end the week at 11,700.

Every Craig Perret in sometiming of an unique of the first Derby victory in six tries for Van
looked as if he were going to take command.

Every Craig Perret in sometiming of an unique of the right of the right and into Alysheba's path. Alysheba apparfather Marion, also a hall of fame trainer,

McCarron has been one of the country's Twice, swerved into his path, and Alysheba's preestiment riders for years, but had always missed here. His memories of this triumph "I thought I was gone," jockey Chris will always be somewhat scary, though When he was ushered to the pressbox and was immediately asked "How do you feel?"

The troubles in this Derby started as soon tardily and was squeezed out of contention. Alysheba was squeezed, too, and McCarron scenario that Bill Shoemaker followed with Ferdinand to win the Derby last year.

Two Wayne Lukas trainees. On the Line field, setting a fairly quick pace, a quarter mile in 22-4/5 seconds and a half mile in :46-2/5. Their other stahlemate, War, recovered vas extraordinarily poor on a lightning-fast from early trouble and moved up on the rail track. But the colt put into the record books and, for a moment, Team Lukas was running the names of two men who were overdue for one-two-three. But the trainer's visions of

All the leaders were starting to weaken. Wan Berg has won nearly 5,000 races, more Capote tired badly and was eased up at the racing history.

finish. Bet Twice made the first serious challenge at the front-runners and momentarily came out a little bit," said Bet Twice's jock-

Alysheba had been able to save ground around the first turn when McCarron went past the struggling favorite. "Demons Begone appeared to be laboring, so I went up inside him," the jockey said. "My horse was picking it up very nicely on the backstretch, and I decided then to put him on the outside. There was a lot of track and I didn't want to get stopped."

With clear sailing, Alysheba outmoved everybody in the field as he went into the final turn. When he went past Leo Castelli, who had made a brief move into contention, he had only Bet Twice in front of him.

Those in the crowd of 130,532 who knew Alysheba's history might have expected him to do something drastically wrong at this point. The colt had the reputation of a misake-prone "sucker horse" coming into the Derby. He had only one official victory to his misses. He also finished first in the Blue stretch. Grass Stakes at Keeneland nine days ago, but was disqualified for bumping a rival in the stretch.

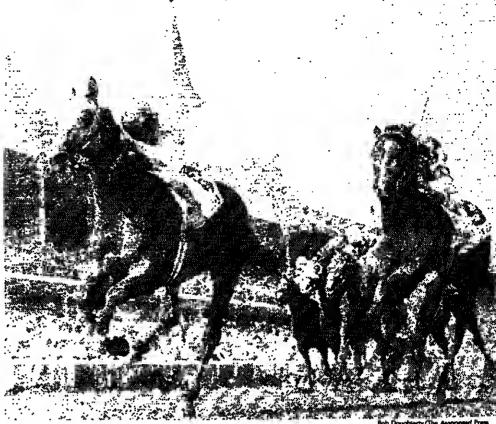

But it wasn't Alysheba who made a mistake at the crucial moment. It was Bet Twice who came close to committing what would have been the most dramatic foul in U.S. ently elipped his heels and stumbled, his head dropping sharply.

"He almost went to his knees," McCarron said. But the horse somehow kept his footing and, with virtually no hesitation, resumed the chase. Bet Twice swerved again in midstretch, causing more interference, but Alysheba was again undeterred. An 8-to-1 shot and sixth choice, he continued resolutely to the wire to earn \$618,600 for owners Dorothy and Pamela Scharbauer.

McCarron, riding in his seventh Derby, made a memorable comeback Saturday, He sustained a severely broken left leg in a fivehorse spill Oct. 17, 1986, at Santa Anita. He returned March 12 and has an eight-ounce stainless steel plate in his leg.

One of the reasons that Alysheba was able to keep running so gamely, and to hold off such stretch-runners as fourth-place Cryptoelearance and fifth-place Templar Hill, was credit before Saturday, amid a string of near-that nobody was running very fast in the

It took the field 26-3/5 seconds to cover the final quarter of a mile - a performance that is an indictment of this generation of 3year-olds. But, years from now, people will not remember that quibble about the quality of the field when they watch the films of the near-calamity that provided one of the most electrifying moments in Derby history.

Alysheha, under Chris McCarron, driving to a three-quarter-length victory over Bet Twice.

Manager Bobby Valentine, arguing with unpire Vic Voltaggio over the sixth-inning ejection of the Rangers' Charlie Hough, soon followed his pitcher from Saturday's game. Hough, left, had disputed calls on his pitches; the Blue Jays won, 9-8, with a two-out run in the ninth.

Raines Rejoins Expos in Grand Form: Slam Beats Mets in 10th

NEW YORK - Tim Raines, playing in his first game after resigning with the Montreal Expos, capped a storybook day with a 10thng grand slam home run Saturday that rallied the Expos to an 11-7 victory over the New York Mets.

Raines who signed a three-year contract as a free agent for \$4.8 million Friday night, hit the grand slam for his fourth hit in five at-bats. The National League's leading

hitter last year, with a .334 average, he tripled on the first pitch thrown to him this season, in the first inning, then singled twice, scored three times, walked and stole a base. "I never expected this," he said. "I thought I might be rusty, but I was comfortable at the plate, and that was important. I wasn't overmatched

"I was rusty on defense, bowever, so I guess I'll have to go to pring training next year." grand slams in a game was on July 3, on a two-out error by shortstop

Stephen Marlowe Sails Anew With Columbus

By Cynthia Guttman

PARIS — Three years ago, from the village of La Herradura on the Spanish Mediterraocan coast. Stepheo Marlowe traveled back to the 15th century. noting that, "if Holy Week and Passover hadn't fallen at the same time the year I was born, none of this would have happened. Some the colonies. one else would have become the most famous man in the world. give or take a few."

The lines mark the opening of a historic encounter between Christopher Columbus and his selfelected ghostwriter, Stephen Mar-

The mission took about a year and a half, throughout which Columbus had no qualms about interrupting Marlowe's sleep to relate a further twist to his fast pace, vivid dialogue and tight adventures. But the bound revelation, soberly entitled "The Memoirs of Christopher Columbus: With Stephen Marlowe" (published by Jonathan Cape in En- Spain and Spanish history, algland and Charles Scribner's Sons ready the setting for earlier novin the United States), has sailed els. notably "The Colossus," onto the best-seller charts in England, and to date, has attracted 11 publishers in Europe, Japan and the United States. The fictional autobiography, narrated by a Columbus endowed with a slangy 20th-century voice, moves at an unrelenting pace as its hero narrative. wryly undresses the legend enshrouding him, and anachronistically comments on the making of his tumultuous era.

Marlowe's Columbas has the ebullient mind of a Don Ouizote Introspective, witty, irreverent and audacious, he is driven forth by the dream of the Great Venture, the certitude that sailing west will lead to the fahled golden-tiled roofs of Cipango and the Great Khan of Cathay.

In his four crossings of the Ocean Sea, Columbus comments on the alchemy that turned him from man to legend, with magic realism and full-blown humor. There is a rich, royal financier seemingly incomplete until Co-lumbus hrings him back the first cigar from the New World to chomp on; a mystic Indian chief-

beautiful and fateful Jewish lover, whom he rescues with bravado from the harbaric rites and sexual zeal of the inquisitor Brother Buil And there are moments of harsher realism — the destruction of the first settlement of Christmas Town, the enslavement of the Indians, the escalation of the war in

history, with romance, with the quarrels of Columbus's two definitive biographers, Salvador de Madariaga and Samuel Eliot Morison. The "Memoirs" mark a departure from Marlowe's earlier works, 11 novels in the thriller genre that inclode "The Summit" (1970) and "The Valkyrie Encounter" (1978). From these he has preserved his line sense for plot. He knows how to maneuver large casis, and how far fantasy can be sustained before losing its magic. He feels at home with based on the life of Goya. When research material is scarce, Marlowe has not hesitated to take daring imaginative steps, inventing what doesn't exist, modifying what does, and discarding whatever facts had no place in his

· The reader is ingenuously teased with a familiar cast of his-torical figures — Felipa Perestrello, Martin Alonso Pinzón, Paolo Toscanelli, Luis de Torres among others - interacting with invented ones, and staging both famed and unfamiliar events, in an incessant quiz game with history. And under the outrageous humor, the whole is permeated with a constant to and fro between illusion and reality, cultivated during his years studying the phi-losophy of Plato at the College of

William and Mary in Virginia. "I think Columbus has the idea that history flows from the pen. not into the pen of the historian. and there is a lot of similarity between liction and history," says Marlowe, "When I was a kid, I read history and science fiction they are two sides of the same

Marlowe (left) delves into another century with his "fictional autobiography" of Colum-bus, shown in 16th-century Italian painting.

coin - one re-creates a world, and one creates a world." Marlowe doesn't hide the affinities that exist between Columbus and himself. At 59, Marlowe is as peripatetic as the "Peripatetic Royal Court of Fernando and Isabel' described in the novel. A native of New York, he has not had a set bome in 20 years, has crossed the Atlantic Ocean 30 times, and never writes a book in one country. The "Memoirs" were started in Spain, and contioued in France, West Germany and England, with the close col-laboration of his wife, Ann. As Columbus says, "At sea, I'm h.ippiest because I'm getting there, wherever there happens to be."

The contrast between Columhus, the skilled navigator who found his way four times to the Island of the Holy Saviour, and Columbus the deplorable colonial administrator is elucidated in Marlowe's covel, but not dwelt upon. Marlowe takes poetic license in slightly whitewashing Columbus for his involvement in bringing slaves back to Spain, amplifying his hrother Diego's role

None of Marlowe's characters are particularly graced with any sense of civility in governing. Diego's ideas about democracy picked up in Switzerland are fast dismissed, while the royal envoy. with his "Handbook of Regulaoons and Rules of Conduct for Colooial Administrators" is sneered at by Columbus, viscerally averse to any form of power. He is already a foreigner in Spain, and around him "the age in which he lived was going on," says Mar-lowe. "They never had encoun-tered a whole oew type of human being before. They knew Black

novel; on the other hand, maybe they didn't know what to do with all these new people." Here lies the serious undertone of the novel, for at the death of Queen Isabella in 1504, the great

Africa, but had never seen these

'bronzy-skinned' people from a place they hadn't known existed.

On the one hand, they were trying to get them into the Catholic

Church as fast as they could,

probably to find heresy or maybe

not, but it is what I had in the

all the "fahled riches of the Past." but has unleashed what somehis torians call the "black legend" of Indian massacres and Inquisition, and left Columbus derelict and forgotten. But somehow, Marlowe's hero keeps his naïve candor as he sinks deeper into his ownmystical quest for further dis-

Surfacing from his love affair with Columbus, Marlowe calls himself "a slow study, a slow learner. I doubt I will ever write a 20th-century book again, as it is such a satisfying feeling to recreate a time in our own terms, and indeed in terms of the 20th century; but not of the 20th century." But during this promotional ur, something has happened to Marlowe's vagabond lifestyle -"this is too much traveling, even for me" he admits. "When in doubt, move," says Columbus. Beaming with the success of his literary hit, Marlowe is not in doubt for the moment. He has finally decided to buy a house in the country where he feels most at home - Spain - and from there, delve into another century.

EMPLOYMENT

LANGUAGE

When Is a Philanderer a Man-Eater?

By William Safire

WASHINGTON — A couple of months ago, in a piece about the language of self-involvement, I quoted a girl friend of Woody Allen as having described the actor as "very much of a womanizer, very self-involved." Then this afterthought: "(If anyone knows the noun for the femanine counterpart to womantizer, send it in)."

Evidently a great many men and women have been brooding about this for years. Punsters always get in the act - male-factor, man-ipulator and man-iac are typical - but serious linguists have had their say as

"I would like to suggest the neopaleologism guman-izer," writes Nancy A. Porter, one of the editors of the Dictionary of Old English being compiled at the Center for Medieval Studies of the University of Toronto. "I have a vested interest in reviving Old English words that have not survived into Modern English," she confesses, "and would welcome a compound built on Old English guma, guman, man."

That's a nice neopaleologism. (Which is a word not to be looked up, but to be figured out: neologismmeans "newly coined word"; paleo- is the Greekderived prefix for "ancient." By infixing paleo- in the middle of neologism. Porter has made use of a satisfying comage for "new ancient word.")

In turning to Old English for the feminine counterpart to womanizer; we avoid the ohvious word-build-ing based on the Latin homo, hominis — identifying man as distinct from beast; as opposed to vir, man as distinct from woman - which would give us hominizer. That is unacceptable because it sounds like a girl having an affair with a barbershop quartet.

The word became a streamer headline in The New. York Post. "Straight from the Hart" was the lead-in line, then the big black block letters: "Gary: 'I'm No Womanizer.' " A tiny subhead summed up the story: "Dem blasts rivals over sex life rumors.".

Did the presidential candidate Gary Hart really say those words? Of course not. That is a manufactured quote, a nefarious journalistic device that puts in people's mouths what the headline writer thinks they should have said pithily.

What Hart did say, after the Washington Post reporter Lois Romano informed him that other campaigns were passing along rumors that the former senator was a "womanizer" and asked him how he planned to deal with that, was that candidates who try to spread such rumors are "not going to win that way, because you don't get to the top by tearing someone else down." That was a sensible, even gracious reply to the sort of question that causes less experienced cand dates to strike poses of rectitude and make strangled noises of outraged virtue.

But the word in the question; escalated by The New York Post headline, certainly placed the need for a feminine equivalent of womanizer center-stage.

A womanizer is a man who seeks frivolous and frequent relations with a variety of women. Although the verb womanize originated in 1590 to mean "make feminime, emasculate," that sense has atrophied; in 1893, Farmer and Henley's slang dictionary equated the word womanize with the merry go wenching. The first Oxford English Dictionary citation for womanizer

LOW COST FLIGHTS

ACCESS VOYAGES

in its modern sense was by John Galsworthy in "The White Monkey," the 1924 installment of his Forsyte

Now the term is always pejorative, replacing the mock-heroic Lotharia (after the rake in a 1703 play) or Casanova, suggesting the disapproval of promiscuity expressed in the slang make-out artist or operator. The essence of the word's disapprobation is in casualness and insincerity; it stops short, however, of lecker, one Who is interested only in sex, and is far from satur, one whose interest in sex is uncontrollable.

Now to the counterpart: a female satyr is a nympho, the clipped form of mymphomaniae, and a female lether is a lether, and in current use is often clipped to leth, pronounced "letch." The noun has formed a verb. Did you see that slut lech after that mere

Shu, perhaps derived from the Low German for "mind puddle," is gaining popularity; after substituted ing for whore in genteel publications, it has maintained its vigor despite the wider acceptance of the word it cuphernized. However, these words — along with harlot and strumpet — are too strongly contemptuous to be suitable equivalents of womanizer; something less commercial and more callous is called for.

Seductress picked up a few votes, as did temptress, but they have a connotation of old-fashioned wickedness; the word sought must treat liaisons as too casual and cool for all-out temptation. Vamp, a pre-1920s slang term for a woman who would drag a man down to her level of delicious depravity, got some play despite its etymology from vampire. David Galef of New York City submitted the innocent and obvious flirt, but admits that it "doesn't include the idea of

HE most frequently submitted suggestion by far is man-eater. "Whether the reference is culinary (South Seas cannibal style) or to sharks, deponent knoweth york. Adds the reporter Stuart D. Bykofsky of The Philadelphia Daily News, "The feminine equivalent of lady-killer would be man-eater, as recently repopularized in the Hall and Oates song."

Few dictionaries are up to date on this sense of the word. But the superb Thorndike-Barnhart World Book Dictionary has included for a decade this figurative meaning: "a woman who is very aggressive toward men." And it cites this usage in Time magazine: "He is half-heartedly fighting off the advances of a man-eater

named Margaret."

In current usage, then, we have to say that the ferminine equivalent of womanizer is man-eater, though the female form seems deadlier than the male. But I would like to put in a pitch for a fine old word derived from the Greek philo, "loving," and order, "man": a philanderer has long been "a lover without serious intentions." We have applied it exclusively to men, for no reason; women can philander, too, and it has a more respectful ring than flirt or slut. Better than finding a gender-counterpart is coming up with a term that is sex-free. When a woman next becomes a candidate for president, she can say, "I am no philanderer," without fear of sexism or, for that matter, of manufacture. tured quotations in headlines.
